

MRS. MARY F. SCANLAN DIES WHILE PREPARING FOR A JOURNEY

Believed to Have Acquired a Vast Fortune by the Sale of the Wiggins Ferry—Prominent in Social Life of the City and in Charitable Work.

MRS. MARY F. SCANLAN.
Who died suddenly yesterday. She was reputed one of the wealthiest women in St. Louis and was prominent socially and in charitable affairs.

Mrs. Mary F. Scanlan, 57 years old, who was reputed one of the wealthiest women in St. Louis and who for years was a social and charitable leader, died suddenly of heart disease at her home, No. 3335 Lucas avenue, yesterday morning, while a carriage was waiting in front of the door to take her to the river, where she intended to board a boat for Cahokia, Ill.

When Mrs. Scanlan came down to breakfast yesterday morning, she was apparently in the best of health. After finishing breakfast she began preparations for a trip to Cahokia, Ill., where she owned a mansion more than 100 years old. Her son, Philip C. Scanlan, assisted her in getting several articles into the carriage. At 9:15 o'clock, she stepped out of the room and when she returned two minutes later, he found his mother lying across the bed, thinking that she had merely fainted, he applied stimulants and summoned medical aid. She had died, however, almost instantly.

For several weeks Mrs. Scanlan had been preparing to take her grandchildren to her birthplace in Cahokia, and it is thought that in so doing she overexerted herself and thus hastened her death.

Mrs. Scanlan came into much prominence in April, 1902, when the Wiggins ferry was sold to the Chicago, Rock Island and Pacific Railroad Company, and it is commonly understood that she acquired a vast fortune by that transaction.

FINANCIAL FIGHT.
Just before the sale of the ferry there was a financial fight between the Rock Island Company and the St. Louis Terminal Railway Association, for the control of the property, the negotiations being carried on by the Mercantile Trust Company and the Mississippi Valley Trust Company for the respective railway corporations.

Members of the Scanlan family held or controlled a large portion of the stock, and when the value of the shares rose from \$10 to \$150, it is understood that members of the family acquired a vast amount of wealth by the sale of the securities.

Mrs. Scanlan's interest in the Wiggins Ferry Company was due to the financial ventures of her father, Samuel Carmichael Christy, and her uncle, Andrew Christy. Both these men were among the stockholders of the company, and Andrew Christy was its first president.

Mrs. Mary F. Scanlan was born in Cahokia, Ill., October 16, 1846, in a colonial mansion that was built in 1796 by her grandfather, Nicholas Jarrett, in 1796. Here she spent her girlhood days.

FOOTBALL TRICK CAPTURES MAN.

Captain Shelton of the Jefferson Guard Uses Gridiron Strategy and Makes a Touch-Down.

Captain George E. Shelton, right-tackle of the 1903-04 West Point football eleven, and athlete of the Jefferson Guards, scored a touchdown at the World's Fair yesterday morning. With the odds three against him he used the strategy of the gridiron, tricked his man low, brought him down and ran with the ball into the goal, which for the occasion was the headquarters of the Jefferson Guard.

The occasion when Captain Shelton proved that his arms and legs had lost none of the cunning of his football days occurred yesterday forenoon when he had occasion to place an obnoxious workman under arrest for refusing to obey an order and for abusive language. Three men, said to be rovers employed on the Exposition site, were sitting on chairs on the lawn just north of the Vardell Industries Palace yesterday about noon. This space is fenced in to give the grounds, tucked in man low, brought him down and ran with the ball into the goal, which for the occasion was the headquarters of the Jefferson Guard.

South St. Paul called on the Governor and tried to impress him with the urgent need of State interference. He held to his determination not to interfere until every other means had been utilized to secure order, and intimated that appeal to the courts was the means yet untaken. The appeal to the State Company seems disposed to go into court.

OBJECTED TO THE PICTURES.

Mrs. Cervera Shocked When She Saw Husband's Photograph.

Considerable excitement was created at one of the amusement gardens near the St. Louis entrance of the World's Fair yesterday afternoon by Mrs. Cervera, widow of the bull fighter who was killed by Carlota Bass. Bass staged at this garden, and the proprietor had placed a large lithograph with pictures of Mrs. Cervera and Bass in the entrance. Mrs. Cervera, seeing the pictures, immediately raised an outcry, saying that it was a shame and an outrage to exhibit them to the public view and demanded that they be taken down. This the proprietor refused to do, and the widow and her mother sought Bass.

It was a matter of their coming and leaving the grounds, wishing to avoid a scene. Mrs. Cervera and her mother were requested to leave the garden.

RESTRAINING ORDER TO BE CONTESTED.

Strikers' Attorneys Will Give Five Days' Notice to Dissolve Injunction Against Them.

Attorneys T. M. Webb and D. J. Sullivan will this morning give the representatives of the packing-houses on the East Side the legal five-day notice to dissolve the injunction against them, issued by Circuit Judge R. D. W. Holder at Belleville Sunday night.

This was decided upon at a meeting of the Executive Board of the strikers yesterday afternoon. This morning a mass meeting of the strikers will be held in the auditorium of the City Hall, at which the injunction and its power, and the legal steps which will be necessary to have it dissolved will be explained by Mr. Webb. Much surprise was manifested yesterday when Sheriff G. W. Thomas and Deputy Charles Cashel appeared in the vicinity of the stock yards and began the service of the injunction papers.

Business Agents Moran and Smith, who are directing the East St. Louis strike, were the first to be served. After them came the officers of the various unions represented in the Packing Trades Council who are out on a strike.

Both Moran and Smith characterized the injunction as wholly unwarranted, and stated that there had been no trouble of any sort and none was anticipated from the strikers. While it was true, they stated, that they had stationed pickets about the stock yards, he said that these men only used argument in keeping nonunion men from the National Stock Yards. So far as injuring the plants in the stock yards, he said, the strikers probably would fight much harder than the deputies employed there to prevent any such action. They said that the reason for this was evident that the strikers expected to win and they expected to go back to their old places.

RECEIVED 400 CATTLE.
According to the National Stock Yards Company report yesterday, 400 cattle were received. Both President Knox and General Manager C. T. Jones stated that the Stock Yards Company had been able to take care of the cattle that had arrived. At the packing-houses, where figuring is done on a regular basis, which was only for twenty-five cattle, practically no killing was done. It was stated, however, that the packers were in a position to kill such cattle as would be offered. Representatives of the packers said that they had secured a sufficient number of laborers to do all the work required at the plants.

P. McKenna and John C. Sullivan, leaders of the strike, and James Sheehan of the Cattle Butchers' Union stated yesterday that not a single member of the Cattle Butchers' Union had returned to work, and that the killing that was being done in the packing-houses was done by men other than members of the union.

Lee T. Philpitt, a Deputy Sheriff at the Stock Yards, yesterday morning escorted twenty laborers to the Stock Yards from St. Louis, where they were recruited. Philpitt carried two big revolvers, but no attempt was made to interfere with him or his men.

William Haeleton, Otto Blum and William Hagan of St. Louis, who were arrested by Deputy Sheriff Charles Cashel Saturday evening on a charge of carrying concealed weapons while they were acting as a guard for a crowd of strike breakers, will be tried before Justice of the Peace McKenna and John C. Sullivan, leaders of the strike, and James Sheehan of the Cattle Butchers' Union will be assisted in the prosecution by Attorneys Tom Webb and D. J. Sullivan.

The National Stock Yards and vicinity appeared deserted yesterday. Live-stock dealers who have closed up their books for the present, have gone away on a vacation, while others, who said that business had nothing to do.

On "Whiskey Chute" there were hardly a dozen men at any time during the day. The notice of the injunction had preceded its service and the officials of the union had had time to recall the pickets which had been stationed around the plants. They were told to go to their homes. During the day the office of the union headquarters were much sought by strikers who asked for detailed information on the injunction.

LITTLE CHANGE IN ST. LOUIS.
Both the striking meat cutters and the officials of the St. Louis Dressed Beef and Provision Company agree that there has been but little change in the strike situation in St. Louis in the last twenty-four hours.

The strike leaders claim they have the situation well in hand. They claim that only ten men, all foremen, were employed by the packers yesterday, and that most of them were compelled to quit before night because of having cut their fingers and hands severely with the tools, with the use of which they were not familiar.

The packers, on the other hand, say they employed about sixty men during the day and that they worked the entire day, though no killing was done. The new men are employed at the same prices that were being paid the union men when the strike began, it is said. They sleep on cots at the packing-house and take their meals there. It is reported that they are not permitted to leave the plant or to hold communication with anyone on the outside, except by special permission.

Thomas W. Crouch, president of the St. Louis Dressed Beef and Provision Company, left the city yesterday for Atlanta. He is expected to remain there for four days and to return to St. Louis by way of Memphis. Whether his trip to the south at this time has anything to do with the strike other officials of the company say they do not know. It is asserted by those

ST. PAUL SHERIFF QUITS GUARDING NONUNION MEN.
St. Paul, Minn., July 18.—The day at the Swift packing plant in South St. Paul was marked by an ineffectual attempt to get 20 additional laborers into the yards and a consequent abandonment of the situation by Sheriff Grimm of Dakota County, upon whom the Swift managers have relied for protection up to the present time.

Several conferences have been held in the office of Governor Van Sant. Delegations of business men from St. Paul and

CHARGES MAY BE PREFERRED AGAINST DETECTIVE ANTRIM
Superintendent Matthews of Old Fair Grounds Declines He Made Arrest Without Provocation.
